

Kettin

Bandung, West Java

+62 888-0634-6148 | kettin@binus.ac.id | [Github](#) | [Portfolio](#)

Computer Science student specializing in Cybersecurity with hands-on experience in web and mobile penetration testing, vulnerability assessment, and DevSecOps. Skilled in identifying security vulnerabilities, assessing their potential business impact, and communicating technical findings into actionable security insights. Supported by intensive cybersecurity training and practical experience across web, mobile, and application security.

Education

Bina Nusantara University

(2024 - Present)

Computer Science - GPA 3.96

[View Academic Transcript](#)

Experiences

Security Manpower Training Program (Collaboration of INKOR and NSHC South Korea)

(Aug 2026 - Sept 2026)

Trainee

- Completed intensive training covering Linux, Web & Network Security, Cryptography, Digital Forensics, ICS/OT, OSINT, AI Security, and VAPT.
- Developed 7 learning video and applied the acquired knowledge in a hands-on Web VAPT final project.

Lab Curiosity (Competition Community in BINUS)

(Dec 2024 - Present)

Active Member

- Mentored and guided 7+ junior students in preparing for and navigating various academic competitions.
- Actively participated in 10+ competitions to challenge and expand technical and foundational skills.
- Engaged in multiple skill-building workshops and training sessions focused on modern technology.

Masimuda Creative (Multimedia Studio)

(May 2024 - Jun 2026)

Freelance UI/UX Designer

- Designed 12+ digital interfaces and visual assets across projects of varying scope, aligning user needs and brand guidelines with front-end requirements to support efficient development.
- Developed intuitive user flows and interaction patterns tailored to client needs, ensuring brand consistency and facilitating smoother design approval and implementation.

Binus University

(Aug 2025 - Sept 2026)

Freshmen Leader & Freshmen Partner

- Lead and guide 50+ freshmen to ensure the smooth execution of the First Year Program before the first semester begins
- Mentor and assist 9 students throughout their first year (12 months) to help them adapt to university life
- Act as a guide to ensure a seamless academic and social transition during their foundational year

Teach For Indonesia

(Sept 2024 - Dec 2024)

Volunteer Tutor

- Taught Mathematics and English to 7 elementary students through interactive learning activities.
- Adapted teaching methods to students' learning needs and collaborated with fellow volunteers throughout the program.

Future Maker

(Jul 2025)

Registration Committee

- Managed registration and administrative verification for 20+ finalist teams during the competition's final stage.
- Coordinated participant requirements and administrative processes to support the smooth execution of the final stage.

Skills

Technical skills

Python, Assembly, Web Security, Mobile Security, Vulnerability Assessment & Penetration Testing, Threat Modeling, DevSecOps, Network Security, Digital Forensics, OSINT, Reverse Engineering

Stack & Tools

Burp Suite, Nmap, Wireshark, ZAP, Frida, MobSF, JADX, apktool, dirbuster, OWASP WSTG & MSTG, GitHub Actions, CodeQL, Trivy, Gitleaks, Docker, Node.js, React, Flutter, PostgreSQL, Git, Linux, Cisco Packet Tracer

Soft skills

Problem Solving, Time Management, Target Oriented, Effective Communication, Collaboration, Adaptability Under Pressure

Projects - [View My Portfolio](#)

Travel-App Penetration Testing Project

Penetration test on a live travel application by decompiling its Android APK, exploiting critical hardcoded credentials and backend secrets, and providing OWASP/CVSS v4.0-based remediation recommendations.

CTF Web App VAPT

Performed a grey-box security assessment on a CTF platform using OWASP WSTG, identifying IDOR, CSRF and developing detailed remediation strategies.

Passvault DevSecOps Pipeline

Developed a password manager following shift-left DevSecOps principles, implementing an automated CI/CD pipeline to detect secrets, code vulnerabilities, and dependency CVEs before deployment.

Stealthmole Saleskit Deck

Translated complex dark web threat intelligence capabilities into strategic B2B business value, demonstrating technical communication and cybersecurity sales enablement skills.

Threat Modeling on McD App

Conducted STRIDE threat modeling across 10 core features of a mobile application, mapping risks to OWASP Top 10 and CAPEC to develop actionable mitigation strategies for data privacy and reward abuse.

Cisco Packet Tracer: Subnetting & Routing

Designed and configured a network topology using Cisco Packet Tracer, implementing subnetting, VLSM, OSPF routing, and Access Control Lists (ACLs).

Certification

• Microsoft Certified: Azure AI Fundamentals - View Credential	2026
• Oracle Databases for Developers Fundamentals - View Certificate	2025
• Google AI Professional Certificate - View Credential	2026
• Python 101 for Data Science - View Credential	2025
• ID Networkers, Secure by Design: Building Security into Development - View Certificate	2026
• ID Networkers, Belajar Dasar Web Pentesting - View Certificate	2026

Language

• Indonesian	Native
• English - View Credential	Advanced

Achievements

• Dean's List Award, School of Computer Science BINUS University	2026
• 1st Place, IDSC International Business Case Competition, Airlangga University	2025
• 1st Place, Invention Udayana UI/UX Design Competition, Udayana University	2025
• 1st Place, Astra Motor Business Case Competition Jakarta Region, Astra Motor	2025
• 1st Place, CCI Summit UI/UX Design Competition, Telkom University	2024
